PROJECTS

Recruitment Application

- The Recruitment Management Application is a cloud-based application hosted in Salesforce and designed to streamline the recruitment process for organizations using declarative and custom development.

- This application will enable organizations to manage Positions, Candidate Profiles, Candidate Skill Set, Job Applications, Candidate Reviews and manage details of Job Postings on various Employment Websites.

- The goal of this project is to improve the efficiency of the recruitment process, reduce manual workloads, and improve the overall recruitment experience.

Tools : Salesforce Development Org Platform and environment tools.
